OVATION ALONG THE LINE.

Huntsville, Ala., April 30.—The scenes of yesterday attending the passage of the presidential train were repeated all along the route to Memphis today. At all the large towns there were large bands and immense crowds to welcome the president and party. Here President McKinley made one of his happiest speeches to a vast throng. His reference to the ex-confederates and the satisfaction of having them welcome him so warmly raised the most enthusiastic ovation ever tendered any man in this part of the country.

GAS WORKS.

SEVERAL THOUSAND DOLLARS TO BE SPENT IN

Improvements—The Plant Proper to Receive Attention First—The Mains to Be Retained.

Supt. Lane, of the Paducah Gas company, has just completed an inspection of the property of the Gas company and has made out an estimate of the cost for such repairs as he has seen fit to make. "We will lay an entirely new system of piping," he remarked in an interview today, "from the mains on down and the amount expended for such purposes will come somewhere between \$20,000 and \$40,000. The expense of the ditch labor alone will cost us not less than \$15,000. We are at work at present on the Gas plant proper and as soon as these repairs are completed we will go to work on the streets. The people of this city will be given a much better gas service than heretofore."

The contractors were to work on a big coal shed in the company yards this morning and machinists are still at work overhauling the machinery in the building. Mr. Coffey, who has been out of the city for the past week, is expected back today and a more definite report of the company's intentions will be published.

BASEBALL NEWS.

TWO PADUCAH BOYS JOIN THE ST. JOE BASEBALL CLUB.

Messrs. Loton Plumlee and Billy Ingert, both members of the "Marble Hall" ball team, have received an offer from the St. Joe, Mo., baseball club. The telegram was received this morning and an answer of acceptance immediately sent back. They will leave tomorrow at noon for St. Joe to join the team. Mr. Ed Pegum, who played with the L. A. L. team, of this city, two years ago, is a member of the St. Joe club and is one of its best men. With the resignation of Plumlee and Ingert a big hole is made in the Marble Hall team's strength, but a meeting will be held tonight and other players secured to fill the vacancies. The Marble Hall team will also elect a manager tonight and it is tipped that Mr. Sam Jackson will be the lucky man.

The Metropolis club has written for a date which will probably be secured for Sunday week. The club will also arrange for running excursions to the many nearby river towns on Sundays and other business of importance will be transacted. All members of the team are requested to attend the meeting.

The little fellow was fishing in an artificial lake in the city park, and falling into the water was drowned before help could reach him.

His father, a prominent business man, who had been ill from pneumonia but a few days, died unexpectedly a few hours later.

Mrs. Carey, who was formerly Miss Pearl Buckner, of Paducah, has many relatives and friends here who will regret to learn of her sad bereavement. Her parents, Mr. and Mrs. J. M. Buckner, now reside in Louisville.

BIG DAMAGES

Luther Henon Awarded \$15,000 Against the Illinois Central Railroad.

One of the most unusual verdicts ever rendered in a Southwest Kentucky court was returned in the Smithland circuit court late yesterday afternoon in the suit of Luther Henon against the Illinois Central railroad for \$15,000 damages for the loss of his right arm.

Young Henon is a minor, and was employed on a gravel train up about Grand Rivers.

It seems from the evidence, he was ordered on the gravel train, and with a shovel in one hand, climbed on the tender of the locomotive. The engine backed to make a coupling, and when it hit failed to couple, and Young Henon was knocked off and fell in such a manner that his right arm was cut off by the wheels. He sued for \$15,000 damages, and the jury gave him \$15,000, all that he asked.

THE MATE SHOT

A TROUBESOME NEGRO HAD TO MAKE HIMSELF SCARCER.

This morning about 4:30 o'clock the City of Memphis was discharging freight at the wharf when a crowd of Paducah negroes began annoying the roustes.

The mate ordered them away and all left but one. This man picked up a handful of rocks and began throwing at the mate.

The mate drew his pistol and shot twice at the negro, but did not hit him. The negro escaped, and the police failed to learn his name.

A DAILY THOUGHT.

By far the greatest thing a man can do for his city is to be a good man. Simply to live there as a good man, as a Christian man of action and practical citizen.—Drummond.

NO LOCAL PARTY, NO NATIONAL PARTY.

A local political party is only an integral part of a state political party, and a state political party of the national party. If Republicans expect to preserve intact their national party and their state party, they must maintain their local organizations. There has been in the past too much straying after false gods among some of the Republicans. A loyalty in local affairs disorganizes and demoralizes, and should be remedied if for no other reason than that the opponents of Republicanism really present an unbroken front of well organized forces. The old motto, "United we stand, divided we fall," and the kindred proverb, "In union there is strength," are worthy the earnest consideration of Republicans everywhere. When over the Democrats cease to bring politics into municipal, county or state affairs, it will be time enough for Republicans to consider the plan. There must always be a local organization, for if there be no local organizations, there can be no national party.

In municipal politics there is doubtless little involving national issues, yet the municipal organization is indispensable to the party as a whole, and should support those who are a part of and help support it. It must stand, for it will always be opposed by organized party forces. There is nothing to gain by indifference to party principle in municipal affairs, and one element of party principle is unity.

A pull together is better than a pull apart, even though nothing is accomplished by the end.

Congressman Chas. K. Wheeler, in an interview recently published, stated significantly that the First district had for several years prevented Kentucky from going Republican. This First congressional district, because of the Democratic majorities it has long rolled up, has been given the name "Gibraltar district." Yet, for some reason, the Democrats in the First district never get anything. In the lists of men who have held the more important state offices, and been elected to the United States senate in Kentucky, where are to be found any from the great "Gibraltar district?" There are a few, no doubt, but how many governors has the First district produced, and how many illustrious Democrats of the district that "prevent Kentucky going Republican" have had an opportunity to immortalize themselves in the United States senate? If the First district is so essential to the Democratic party's success in Kentucky, why is it that so few representatives of the district ever try anything? Are they too lazy to get to the polls, or too insignificant to be heeded? They seem to be a badly misdirected set. They need a little "get up and get." If they hold the balance of power in Kentucky, they deserve something. The truth is, the Democrats in the First district seem to have no leader capable of enforcing its demands. The party gets its votes and then laughs at it. If it has claims, they remain unheeded. All the First district Democrats ever gets is a few small offices and a vote of thanks, with the privilege of "keeping the district from going Republican" again next time. It is perhaps nothing to the Republicans party, but every man with any pride in his own particular section of the state desires to see men from his district get what they are entitled to. If the offices must go to Democrats, the Republicans in the First district would prefer seeing them go to First district men. Yet the Democrats of the First district never murmur. They plot along with assiduous contentment, and continue to "keep the state from going Republican." They do all the work and somebody else runs away with the plunder. They act like a lot of dead ones.

The city council has taken no steps to abolish the office of city marshal. It evidently intends to leave it as a sinecure for some one to hold four years after the city goes into the second class.

THE RIVER NEWS.

The Democratic candidates have reached the "poetry" stage. The public need be surprised at nothing now.

A great many things have in past years been brought into local politics, but this is the first time the candidates ever attempted to drag the nutes into a campaign.

Hon. James M. Head, Tennessee member of the National Democratic committee, is quoted as saying in regard to Mr. W. J. Bryan's announcement that he would not again be a candidate for the presidential nomination. "It is no more than might have been expected by those who understood the mental calibre and the political aspirations of the man." "No, doubtless not! It requires a man of colossal intellect to realize that he is not the choice of the people after two successive defeats for the presidency, and after discovering it, to magnanimously abandon his efforts."

Rev. Dr. William S. Rainford, of St. George's church, New York, has brought a storm of criticism down on his unhallored head by declining at a public dinner that "it was all a—rot to lay the blame for the war in China on the missionaries." Rev. William stands pat, however. He still asserts that it was "a—d ret," and that "a—d" is good English and its use often justifiable. When he read all the papers had to say on the subject, "a—d" was probably a mild term compared to what he then said. Rev. William has yet to learn that the privilege of averting does not extend to preachers and women.

Callahan, the alleged Canaba kidnapper, was acquitted by the jury. The judge tipped it a real roast when the verdict was rendered saying: "Had Callahan made his own choice of a jury he could not have selected twelve men who could have soiled him more faithfully. If the state had made the selection, I know of no man it could have named who could have been less careful of its interest. The jury is discharged without the compliments of the court and the prisoner likewise released. I presume to continue his criminal practices in which you have failed to check him. I do not know what motive actuated you in reaching this decision, but I hope none of you will ever appear again in this jury box."

THE DERBY.

HIS EMINENCE WINS EASILY AT LOUISVILLE YESTERDAY.

Louisville, Ky., April 30.—His Eminence won the Kentucky derby; Sanchezarzo second and Driscoll, third. Aland Schreck the favorite, was last. Fifteen thousand people saw the race. One hundred thousand dollars was bet on the race. Schreck carried two thirds of it. His Eminence was strongly backed by the Bluegrass contingent. His Eminence made his own pace and was never in trouble. The time was 2:07 1/2. This was as good as Ben Hur made in 1900 when the Derby was cut from a mile and a half to a mile and a quarter.

SMALLPOX SCARE.

ONE CASE DISCOVERED AT WATER VALLEY, GRAVES COUNTY.

Dr. J. J. Shell, of Mayfield, was called Saturday night to Water Valley to see a man named Henry who was thought to have smallpox. The doctor pronounced the case a genuine one and well developed. Arrangements were made to have his patient isolated and there is no fear of the disease spreading.

JACK McLELLAND LICKED.

Louisville, Ky., April 30.—Dave Sullivan knocked out Jack McLeelland in the twenty-first round of a twenty-five round go before the Southern Athletic club last night. The deciding blow was a left hook on the jaw, and it took several minutes to bring McLeelland around.

MARRIAGES AT FULTON.

There were two marriages at Fulton Sunday. Jas. E. Gleason and Miss Doris M. Chatham, an eloping couple from Marion, Ill., were married by Squire Roberts, and Lon Clark and Miss Barrie Barnett, of Water Valley, by the same official.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

A DAILY THOUGHT.

By far the greatest thing a man can do for his city is to be a good man. Simply to live there as a good man, as a Christian man of action and practical citizen.—Drummond.

NO LOCAL PARTY, NO NATIONAL PARTY.

A local political party is only an integral part of a state political party, and a state political party of the national party. If Republicans expect to preserve intact their national party and their state party, they must maintain their local organizations. There has been in the past too much straying after false gods among some of the Republicans. A laity in local affairs disorganizes and demoralizes, and should be reminded if for no other reason than that the opponents of Republicanism generally present an unbroken front of well organized forces. The old motto, "United we stand, divided we fall," and the kindred proverb, "In union there is strength," are worthy the earnest consideration of Republicans everywhere. When ever the Democrats cease to bring politics into municipal, county or state affairs, it will be time enough for Republicans to consider this plan. There must always be a local organization, for if there be no local organizations, there can be no national party.

In municipal politics there is doubtless little involving national issues, yet the municipal organization is indispensable to the party as a whole, and should support those who are a part of and help support it. It must stand, for it will always be opposed by organized party forces. There is nothing to gain by indifference to party principle in municipal affairs, and one element of party principle is unity.

A pull together is better than a pull apart, even though nothing is accomplished in the end.

Congressman Chas. K. Wheeler, in an interview recently published, stated significantly that the First district had for several years presented Kentucky from going Republican. The First congressional district, because of the Democratic majorities in the name "Gibraltar district." Yet, for some reason, the Democrats in the First district never get anything. In the lists of men who have held the more important state offices, and been elected to the United States senate in Kentucky, where are to be found any of the great "Gibraltar district"? There are a few, no doubt, but how many governors has the First district produced, and how many illustrious Democrats of the district that "brave Kentucky going Republican" have had an opportunity to immortalize themselves in the United States senate? If the First district is so essential to the Democratic party's success in Kentucky, why is it that so few representatives of the district ever get anything? Are they too lazy to try, too timid to ask, or too insignificant to be heeded? They seem to be a badly mistreated set. They need a little "get up and get it." If they hold the balance of power in Kentucky, they deserve something. The truth is, the Democrats in the First district seem to have no leader capable of enforcing its demands. The party gets its votes, and then laughs at it. If it has claims, they remain unheeded. All the First district Democrats ever gets is a few small offices and a vote of thanks, with the privilege of "keeping the district from going Republican" again next time. It is perhaps nothing to the Republican party, but every man with any pride in his own particular section of the state desires to see men from his district get what they are entitled to. If the offices must go to Democrats, the Republicans in the First district would prefer seeing them go to First district men. Yet the Democrats of the First district never murmur. They plot along with anxious contentment, and continue to "keep the state from going Republican." They do all the work and somebody else runs away with the plunder. They act like a lot of dead ones.

The city council has taken no steps to abolish the office of city marshal. It evidently intends to leave it as a sinecure for some one to hold four years after the city goes into the second class.

Gays the Mayfield Messenger: "The 'we' of this office spent Sunday

in Paducah with his family. The other end spent the day in Memphis with the other fellow's family."

The Democratic candidates have reached the "poetry" stage. The public need be surprised at nothing now.

A great many things have in past years been brought into local politics, but this is the first time the candidates ever attempted to drag the names into a campaign.

Hon. James M. Head, Tennessee member of the National Democratic committee, is quoted as saying in regard to Mr. W. J. Bryan's announcement that he would not again be a candidate for the presidential nomination: "It is no more than might have been expected by those who understood the mental calibre and the political aspirations of the man." No, doubtless not! It requires a man of colossal intellect to realize that he is not the choice of the people after two successive defeats for the presidency, and after discovering it, to magnanimously abandon his efforts.

Rev. Dr. William S. Rainford, of St. George's church, New York, has brought a storm of criticism down on his unshaven head by declaring at a public dinner that "it was all d—rot to lay the blame for the war in China on the missionaries." Rev. William stands pat, however. He still asserts that it was "d—rot," and that "d—rot" is good English and its use often justifiable. When he read all the papers had to say on the subject, "d—rot" was probably a mild term compared to what he then said. Rev. William has yet to learn that the privilege of swearing does not extend to preachers and women.

Callahan, the alleged Omaha kidnapper, was acquitted by the jury. The judge tipped it a real roast when the verdict was rendered saying: "Had Callahan made his own choice of a jury he could not have selected twelve men who could have served him more faithfully. If the state had made the selection, I know of no man it could have named who could have been less careful of its interest. The jury is discharged without the compliments of the court and the prisoner likewise released. I propose to continue his criminal practices in which you have failed to check him. I do not know what motive actuated you in reaching this decision, but I hope none of you will ever appear again in this jury box."

THE DERBY.

HIS EMINENCE WINS EASILY AT LOUISVILLE YESTERDAY.

Louisville, Ky., April 30.—His Eminence won the Kentucky derby, Epiphany second and Driscoll, third. Alard Schreck the favorite, was last. Fifteen thousand people saw the race. One hundred thousand dollars was bet on the race. Schreck carried two thirds of it. His Eminence was strongly backed by the bluegrass contingent. His Eminence made his own pace and was never in trouble. The time was 2:07 1/2. This was as good as Ben Brush made in 1896 when the Derby was run from a mile and a half to a mile and a quarter.

SMALLPOX SCARE.

ONE CASE DISCOVERED AT WATER VALLEY, GRAVES COUNTY.

Dr. J. J. Shell, of Mayfield, was called Saturday night to Water Valley to see a man named Henry who was thought to have smallpox. The doctor pronounced the case a genuine one and well developed. Arrangements were made to have the patient isolated and there is no fear of the disease spreading.

JACK McLELLAND LICKED.

Louisville, Ky., April 30.—Dave Sullivan knocked out Jack McLeelland in the twenty-first round of a twenty-five round go before the Southern Athletic club last night. The deciding blow was a left hook on the jaw, and it took several minutes to bring McLeelland around.

MARRIAGES AT FULTON.

There were two marriages at Fulton Sunday. Jas. E. Gleason and Miss Dora M. Chatham, an eloping couple from Marion, Ill., were married by Squire Roberts, and Lon Clark and Miss Barlie Barnett, of Water Valley, by the same official.

There is more Cretan in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Huli's Catarrh Cure, manufactured by P. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circular and testimonials.

CALLED MEETING.

COUNCIL HELD A SESSION LAST NIGHT AT THE CITY HALL.

The Supervisors' Report and the Return from the Census Enumerators Were Adopted.

The council met in called session last night with all members present excepting Continues Jones and Hyman. The report of the census committee, showing a total of 21,457, was read, received, filed and concurred in.

A bill providing for the drafting of an ordinance and the preparation of the necessary papers to place Paducah among the cities of the second class, was introduced and given first reading.

A motion was made and carried to allow Mr. W. W. Lyon, who has just finished a map of the city, \$50 on account.

A petition from the property owners on South Nineteenth street relative to paying for street improvements, was read and referred to the street committee and city attorney.

The report of the board of supervisors was read, received, filed and concurred in. It shows \$7,517,340 worth of property assessed to white persons and \$123,620 to colored, making a total of \$7,640,960. The white polls number 3,239 and the colored 1,292.

A resolution to receive the association's book for the year 1901 was made and passed.

The matter of having the Water company to extend its mains to Highland was brought up and referred to the light and water committee.

The mayor remarked that the recent actions of the city council, showing that the Highland water was not protected from fire and that some action should be immediately taken and he suggested an immediate conference with the Water company.

A petition from the residents of South Tenth, near Husbands street, asking for an extension of the water mains one square south of Husbands on Tenth and agreeing to pay all the dues for two years, was read and the Water company instructed to lay the mains.

The residents of Court street asked permission to lead their horses on the pavement during carnival week, as they were prevented from obtaining access to their residences in the usual way by the booths to be used in the street fair. The permission was granted.

The council by motion then adjourned.

QUITE MYSTERIOUS.

ALL THE SUSPECTS TURNED OUT OF JAIL WITHOUT EXPLANATION.

The cowardly murder of Plagman Hugh Lucas, of Wingo, Ky., while in the discharge of his duty near Arlington, is still a mystery.

A number of tramps had been arrested suspected of the crime, eight being in jail at Cairo.

Yesterday they were all released, but what significance this has is not stated. The report that young Lucas was killed by the brother of a young lady in Dyersburg is believed by a great many. It is even reported that the young man has confessed.

The air of mystery that surrounds the later developments would indicate some semblance of truth in the reports. It is not yet discovered who committed the crime, the tramps, who acknowledge to being on the train, would probably not have been so suddenly released.

DECIDED ON DEATH.

NOTED NAVAJO CHIEF SHOT BY MEMBERS OF HIS OWN TRIBE.

Albuquerque, N. M., April 30.—A Navajo Indian boy, who is attending the government Indian school here, has received a letter from his parents telling him that members of the Tribe had to shoot and kill Hoston Hottin Hoge, a noted chief.

Hoston for years had been considered partially demented and very dangerous. He had brought about on several occasions serious trouble between white settlers and Indians, and in November, 1899, when deputy sheriffs went to arrest some turbulent Navajos, he led the fight against the officers, when several of the latter were killed. Since then he attempted to raise a small band of Navajos, and became so threatening that they held a council of war and shot him dead. The affair occurred on the reservation, west of this city.

A FUSION TICKET PROBABLE.

Benton, Ky., April 30.—There is almost a certainty of a fusion ticket for Marshall county. There is so much dissatisfaction in the county over the way the recent primary was conducted that Republicans, Populists and disgruntled Democrats will place a ticket in the field. D. B. Ferguson is mentioned for county judge and J. D. Mathis, of Harvey, for county clerk.
